PROFESSIONAL SUMMARY

Results-driven Backend Developer with hands-on experience in designing, developing, and optimizing scalable web applications using Node.js, Express.js, MongoDB, and JavaScript. Strong expertise in building secure REST APIs, authentication systems, database architecture, and backend performance optimization.

CORE TECHNICAL SKILLS

Languages: JavaScript (ES6+)

Backend: Node.js, Express.js

Database: MongoDB, Mongoose

API Development: REST API, CRUD Operations, API Security, Postman Testing

Authentication: JWT, bcrypt, Role-Based Access Control

Architecture: MVC Pattern, Middleware, Error Handling, Validation

Tools: Git, GitHub, VS Code, Postman

Developer Skills: Debugging, Clean Code, Performance Optimization, Problem Solving

PROFESSIONAL EXPERIENCE

Backend Developer Intern | Scriza Private Limited, Noida (Current)

- Engineered scalable backend modules using Node.js and Express.js for business-centric web applications.
- Designed and deployed secure REST APIs leveraging modular routing and middleware architecture.
- Implemented robust authentication and authorization workflows utilizing JWT and bcrypt encryption.
- Integrated MongoDB for structured data management, including schema design and query optimization.
- Enhanced API latency and performance through optimized database queries and efficient code structuring.

- Partnered with frontend teams to facilitate seamless API integration and feature delivery.
- Contributed to full SDLC cycles including debugging, testing, and production deployments.

PROJECTS

1. E-Commerce Backend Application

Tech Stack: Node.js, Express.js, MongoDB, JWT, bcrypt

- Built complete backend system for e-commerce platform with scalable architecture.
- Developed APIs for users, products, cart, wishlist, orders, and payments.
- Implemented secure login/signup using JWT authentication.
- Added admin panel APIs for product and inventory management.
- Created reusable middleware for validation, authorization, and error handling.
- Designed MongoDB schemas for optimized relationships and faster queries.
- Tested APIs using Postman and maintained clean API documentation.

2. URL Shortener API

Tech Stack: Node.js, Express.js, MongoDB

- Developed URL shortening service like Bitly.
- Generated unique short URLs with redirect tracking.
- Added analytics dashboard for click counts and usage stats.
- Implemented rate limiting and API security best practices.

3. Task Management REST API

Tech Stack: Node.js, Express.js, MongoDB

- Created a task management system with authentication.
- Features included create/update/delete tasks, due dates, priorities, status tracking.
- Added pagination, sorting, filtering APIs for better performance.

EDUCATION

B.Tech CSE

Himalayan Institute of Technology and Management, Lucknow | 2022-2025 | 71%

Diploma Polytechnic

Tathagat Gautam Buddha Government Polytechnic, Shravasti | 2018-2021 | 75%

High School

UP Board, Allahabad | 2018 | 86%
